VIA FIRST CLASS MAIL

New Hampshire Office of the Attorney General
33 Capitol Street
Concord, New Hampshire 03301

Dear Sir or Madam:

Our firm represents the American Academy of Pediatrics (the "AAP"). We are writing to inform you that a laptop computer, which may have contained information about certain residents of your state, such as name and social security number, was recently lost during a move at the AAP, headquartered in Elk Grove Village, Illinois. At this time, we have no reason to believe that information about these residents of your state was improperly accessed or misused. Nevertheless, pursuant to the laws of your state, we want to notify you of the situation, provide background information concerning what happened and inform you of the steps that we have taken to help protect these residents of your state from identify theft.

What Happened?

The research department of the AAP completed a move of offices earlier this month. Before the move, a laptop computer containing information including the names, social security numbers and addresses of certain members was placed in a locked file cabinet. During the move, the file cabinet was transferred to a company for disposal. The AAP and the disposal company have conducted an investigation and have searched diligently for the missing file cabinet and computer, including searching warehouses and a local landfill. However, neither the AAP nor the disposal company have been able to locate the file cabinet or the laptop.

How Many Residents of Your State are Affected?

We believe that the security breach affects only approximately one resident of your state.

Steps That the AAP Has Taken and Plans to Take to Prevent Identity Theft

We have no knowledge of actual misuse of any of the data contained in the missing laptop computer. However, in compliance with the laws of your state, the AAP plans to send out notification by first class mail (postage prepaid) to all the affected residents of your state during the week of October 22, 2007. The notices to the individuals include the contact information of the major consumer reporting companies, the Federal Trade Commission, and a specially designated member service representative at the AAP, as well as any further information that may be particularly required by

your state statute. As a precaution, the AAP has arranged for the affected individuals to be able to enroll, at no cost to them, in a credit monitoring service through TransUnion, one of the major credit reporting companies. The member notices also contain enrollment information concerning the credit monitoring service.

If you have any questions, please contact me at 847-295-4335.

Sincerely,

A handwritten signature in cursive script, reading 'Charlene Q. Kalebic'.
